Centre d'Immunologie Humaine

INSTITUT PASTEUR

Journée de la Recherche Translationnelle
08 Octobre 2008
Institut Pasteur - Auditorium Jacques Monod

Morning Session (09h00 – 12h30) – Scientific Presentations

Introduction by Alice Dautry, Directrice Générale de l'Institut Pasteur

09h10 – 09h40 **Eric Pamer**, Memorial Sloan-Kettering Cancer Center, USA
Innate immune defense against intestinal bacteria

09h40 – 10h10 **Lluis Quintana-Murci**, Institut Pasteur, France
Evolutionary immunology as a tool for exploring new frontiers of host defence

10h10 – 10h40 **Stanislas Pol**, Hôpital Cochin, France
New trends in the evaluation and the therapy of Hepatitis C virus infection

Break

11h00 – 11h20 **Jacques Demotes-Mainard**, ECRIN, France
Infrastructures de recherche clinique et translationelle en Europe

11h20 – 11h50 **Frank Nestle**, King's College London School of Medicine, UK
The IL-23/TH17 axis in Psoriasis: From Genes to Function and Therapy

11h50 – 12h20 **Pramod Srivastava**, University of Connecticut, USA
Chaperone-peptide complexes for immunotherapy of human cancer

Afternoon Session (14h00 – 17h30) - From bedside-to-bench

Introductions and overview of Translational Research at Institut Pasteur
Muriel Eliaszewicz, Medical Director, Institut Pasteur, France
Milena Hasan, Centre d'Immunologie Humaine (CIH), Institut Pasteur
Spencer Shorte, Imagopole, Institut Pasteur

14h30 – 14h50 **Nicolas Thiounn**, Hôpital Necker - **Matthew Albert**, Institut Pasteur
Effective tumor immunity in Transitional Cell Carcinoma of the bladder

14h50 – 15h10 **Maxime Dougados**, Hôpital Cochin – **Lars Rogge**, Institut Pasteur
$CD4^+$ T cell subsets in Ankylosing Spondylitis

15h10 – 15h30 **Antoine Gessain,** Institut Pasteur - **Andres Alcover**, Institut Pasteur
HTLV-1 transmission from cell to cell

Break

15h50 – 16h10 **Daniel Scott**, Institut Pasteur - **Laurence Weiss**, Institut Pasteur
Protective Responses against HIV/SIV infection

16h10 – 16h30 **Antoine Toubert**, Hôpital Saint-Louis - **James Di Santo**, Institut Pasteur
Dissecting Human NK cell Development

16h30 – 16h50 **Vincent Mallet**, Hôpital Cochin – **Sébastien Lacroix Desmazes**, Institut des Cordeliers
Acquired protein S deficiency and nodular regenerative hyperplasia in HIV-infected patients

16h50 – 17h20 **Arnaud Moris**, Institut Pasteur
Evaluation of the immunogenicity of anti-HIV vaccine candidates in cell culture
