

Bioinformatics and Comparative Genome Analysis course

July 5 – July 17, 2010

Institut Pasteur Paris - France

<http://www.pasteur.fr/~tekaia/BCGA2010.html>

Organizers/Contact:

Odile Kalogeropoulos, Institut Pasteur Paris - France.

Julie Thompson, IGBMC Strasbourg – France.

Hugo Naya, Institut Pasteur de Montevideo - Uruguay.

Fredj Tekaia, Institut Pasteur Paris - France.

With financial support from: **Institut Pasteur International Network.**

Aim of the course and call for application

The main objectives of the course are to familiarize young scientists (Biologists/Computer Scientists/Mathematicians) with bioinformatics and genome data analysis skills and to encourage multi-disciplinarity by introducing:

- 1- advanced fundamental algorithms in bioinformatics;
- 2- their application in genome analyses;
- 3- and recent knowledge acquired from genomes studies and perspectives.

The course is aimed at motivated Ph.D and Post-doctoral students, as well as young assistant professors and junior scientists in **Academic Institutions**, with background in Mathematics, Statistics, Biology or Computing, and who are involved in Bioinformatics and Genomes studies.

Duration: Full time from July 5 to July 17, 2010.

Location: Institut Pasteur Paris, 28 rue du Dr Roux, 75724 cedex 15 Paris, France.

Accommodation and meals: Selected students from developed countries will be charged **1300€**. There will be no charge for students from developing countries and International Network of Pasteur Institute.

Applications Deadline: **March 20, 2010.**

More information about the course, how to apply and application form can be found at the following web page: <http://www.pasteur.fr/~tekaia/BCGA2010.html>
