

LEARN, GROW, INNOVATE

# Pasteur Courses

Transmitting excellence in knowledge for the health of all

Held at the Institut Pasteur Education Center in the **heart of Paris**, these courses combine **theoretical training and hands-on practical work** in an inclusive and international environment.

Taught by **world-renowned experts**, the Pasteur Courses support you throughout your academic and professional journey — whether you are a **Master's student, PhD student, healthcare professional, or researcher**.

They cover a wide range of **life sciences and health topics** — from epidemiology to infectious disease modeling, including microbiology, immunology, genetics, and cutting-edge advances such as AI in bioimaging and electron microscopy.
