

Master in Neuroscience

Five International Scholarships
for the Course 2017-2018

Master in Neuroscience: “from bench to bedside”

An integrated view of Neuroscience from its fundamentals to the clinical application.

Topics focus on the research agenda of the [Instituto de Neurociencias](#) (IN): developmental, molecular, cellular and systems neurobiology

The IN is a centre formed by researchers from the [Spanish National Research Council](#) (CSIC), the main research body in Spain and the [University “Miguel Hernández”](#) (UMH).

Its outstanding research development provides an ideal framework to transmit the most relevant advances in neuroscience.

This Master has an international student exchange agreement with the Institut Pasteur/Université Pierre et Marie Curie (Paris)

Apply for your master scholarship at the IN!

Number of scholarships: Up to 5

Duration: 9 months (from October '17 to June '18)
