

Pasteur-Paris University International Doctoral Program (PPU) IN LIFE SCIENCES AND BIOMEDICINE

Call for 2020

An exceptional **PhD program*** in the exciting, dynamic and interactive research environment of the Institut Pasteur in collaboration with Parisian universities. The **PhD program** is for students holding a Master's degree (or equivalent) in science, medicine or related fields from a non-French university.

Educational program

- Improving public health and welfare through scientific discovery
- Quest for knowledge beyond the frontiers of biological sciences
- Satisfying scientific curiosity in a dynamic research environment
- State-of-the-art technology platforms
- A three-year salary covering living expenses and social benefits
- Assistance with housing and visas
- Tailored courses and training to high proficiency
- Close scientific supervision
- Interactive environment for collaborations
- Dedicated student club for science and social activities

Application procedure

There are **3 steps** in the selection process

- **First step** : find a host laboratory. Available labs and their projects will be posted on the web site and may be contacted from September 16 to November 1.
- **Second step** : submit complete application in collaboration with host lab by November 14.
- **Third step** : short-listed candidates will be invited for an interview at the Institut Pasteur at the end of January 2020, with decisions shortly thereafter.

** This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement N°665807.*

Practical information

Deadline for application: Nov. 1, 2019
