

# Pasteur-Paris University International Doctoral Program (PPU) IN LIFE SCIENCES AND BIOMEDICINE

## Call for 2021

An exceptional **PhD program\*** in the exciting, dynamic and interactive research environment of the Institut Pasteur in collaboration with Parisian universities. The **PhD program** is for students holding a Master's degree (or equivalent) in science, medicine or related fields from a non-French university.

### Educational program

- Improving public health and welfare through scientific discovery
- Quest for knowledge beyond the frontiers of biological sciences
- Satisfying scientific curiosity in a dynamic research environment
- State-of-the-art technology platforms
- A three-year salary covering living expenses and social benefits
- Assistance with housing and visas
- Tailored courses and training to high proficiency
- Close scientific supervision
- Interactive environment for collaborations
- Dedicated student club for science and social activities

### Application procedure

There are **3 steps** in the selection process

- **First step** : be selected by a host laboratory. Available labs and their projects will be on the website from September 18 to November 2. Contact the lab of interest soon after the 18 to be interviewed by the supervisor.
- **Second step** : submit complete application in collaboration with host lab by November 16, 2020.
- **Third step** : short-listed candidates will be invited for an interview at the Institut Pasteur at the beginning of February 2021, with decisions shortly thereafter.

\* This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement N°665807.

### Practical information

**Deadline** for application: Nov. 2, 2020
