

Pasteur-Paris University International Doctoral Program (PPU)

IN LIFE SCIENCES AND BIOMEDICINE

The call for projects from host labs is open June 29 - September 1, 2024
(for PPU PhD students starting in October 2025)

The call for candidates will start September 9, 2024

An exceptional **PhD program** in the exciting, dynamic and interactive research environment of the Institut Pasteur in collaboration with Parisian universities. The **PPU PhD program** is for students holding a Master's degree (or equivalent) in science, medicine or related fields from a non-French university.

Program philosophy and resources

- Improving public health and welfare through scientific discovery
- intensive research experience in a dynamic and supportive learning environment
- nurturing scientific curiosity while fostering creativity and independence
- stimulating discipline-specific and cross-disciplinary coursework
- mentorship from world-class faculty and a personalized thesis advisory committee
- extensive cutting-edge resources and state-of-the-art technology platforms on site
- a three-year salary covering living expenses and social benefits
- assistance with housing and visas
- dedicated student club for science and social activities

Application process

There are **3 steps** in the selection process

- **First step:** being selected by a host laboratory. Available labs and their projects will be on the website from September 9 to October 27, 2024. Apply with the lab of interest (up to 4) as early as possible after September 9 to be potentially interviewed by the supervisor.
- **Second step:** submit complete application in collaboration with host lab (joint application) by November 12, 2024.
- **Third step:** short-listed candidates will be invited for an interview at the Institut Pasteur early February 2024, with decision shortly thereafter.

Deadline for application: Oct. 27, 2024
