Pasteur Innov'day 2nd edition

PROGRAMM

June 25, 2024 at CIS

A packed and varied program awaits you in the Conference Center's three areas:

In the auditorium:

Two **round tables** (in French) led by the Editor-in-Chief of Pharmaceutiques Hervé Requillart, and a **pitch competition** (in English).

2-2.15 pm

Introduction: Isabelle Buckle, Executive VP, Technology Transfer & Industrial Partnerships

«The Institut Pasteur, a research accelerator»

2.15-3.10 pm

Round table 1 «Collaborating to succeed: proof-based examples»

How can we promote collaboration between academic teams, startups, biotechs and industrial groups to deliver successful research projects? How do we pull the right levers to fund these projects? What «win-win» agreements can be crafted to «unleash» open innovation?

With:

Franck Mouthon, CEO of the Agency for health research programs

Laurent Arthaud, Managing Partner Bpifrance Investissement et Président Argobio

Benoit Labarthe, Head of Research Acceleration and Technology Transfer, French Health Innovation Agency (AIS)

Catherine Martre, CEO of Meletios Therapeutics

Damien Choppy, Senior Director Business Development, Roche Pharma Partnering

3.10-3.30 pm

Pitch session – Postdocs and PhD students

4-4.45 pm

«Supporting our young talent to prepare for the future of health innovation»

Detecting talent, winning loyalty, backing projects, fostering enterprising spirit... The Institut Pasteur supports the efforts of talented individuals because they are the future of health innovation. How can we help them promote their skills to industry players? How do we train them in innovation to get it to market? Several scientists who trained at the Institut Pasteur and moved to industry share their experience and illustrate the breadth and diversity of careers in innovation.

With:

Monica Sala, VP of Education, Institut Pasteur

Mariana Mesel-Lemoine, VP of Diversity, Equity & Inclusion, Head of the Career Development Department – CARE, Institut Pasteur

Mathieu Prieto, Talent Acquisition Manager, L'Oréal

Renaud Jonquères, Senior Vice President – Head of Transformation Office, BioMérieux

André Choulaka, Ph.D., Chief Executive Officer & Director, Collectis

4.45-5.15 pm

Pitch session – Postdocs and PhD students

5:15-5:45 pm

“Innovation in healthcare to meet society's expectations”

Marc Giget Membre de l'Académie des Technologies, Pôle Technologie, Economie et Société, and President of the Paris Club of Innovation Directors

5:45 pm

Pitch competition awards

Hall 1

stands will showcase the expertise of numerous Institut Pasteur technology core facilities and/or units. **Meetings can be scheduled with the following entities:**

SCREENING, MICROFLUIDICS and ORGAN ON CHIPS

- Diagnostic Test Innovation & Development
- Biomaterials and Microfluidics
- Chemogenomic and Biological Screening

BIOMOLECULAR SCIENCE

- Molecular Biophysics
- Antibody Engineering
- Crystallography
- Production and Purification of Recombinant Proteins

OMICS, PROTEOMICS, METABOLOMICS AND SINGLE CELL

- Proteomics
- Flow Cytometry
- scBiomarkers
- Metabolomics

MULTISCALE IMAGING

- Photonic Bioimaging
- Hearing Institute Bioimaging

BIOLOGICAL RESOURCE CENTER

- Collection of the Institut Pasteur (CIP)
- Integrated collections for adaptative research in biomedicine (ICaReB Biobank)

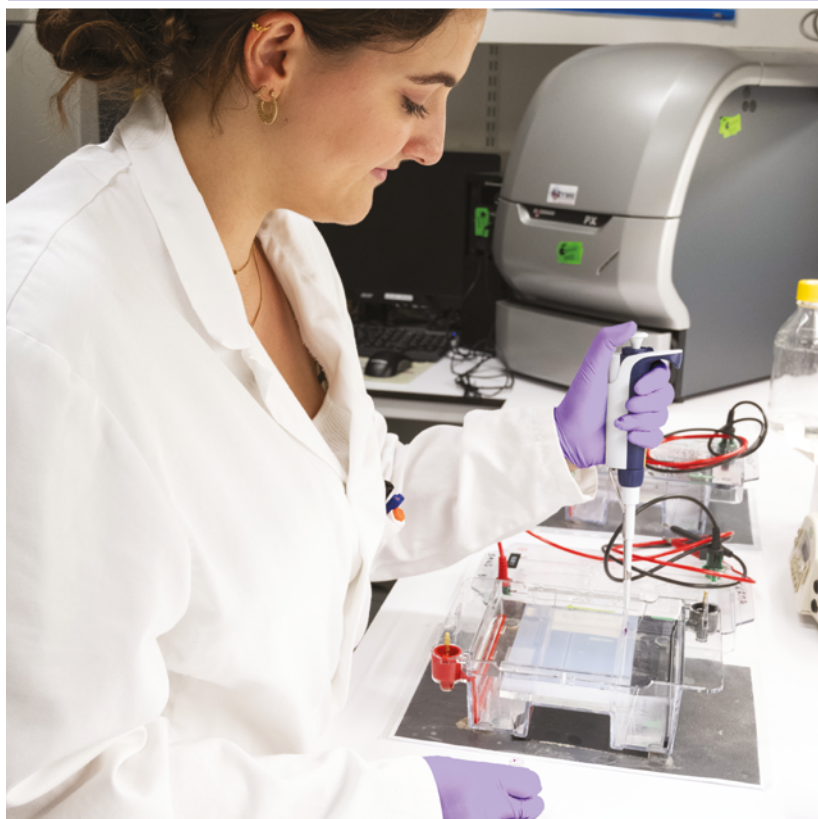

CENTER FOR INFORMATICS RESOURCES AND RESEARCH :

- Bioinformatics and biostatistics Hub

CENTER FOR ANIMAL RESOURCES AND RESEARCH

- HistoPathology
- Human Disease Models

DEPARTMENT OF TECHNOLOGY TRANSFER AND INDUSTRIAL PARTNERSHIP

Hall 2, reproduction salle des Actes

there will be pitches (in English) on three topics:

2.30-3.10pm Technology core facilities in support of health products

Hélène Laude, MD, PhD, Head of Clinical Investigation Plateform (ICaReB-CLIN), Institut Pasteur

Emmanuel Roux, Head of Integrated Collections for Adaptive Research in Biomedicine - ICaReB-biobank

Thierry Rose, Head of the Diagnostic Test Innovation & Development Core Facility, Institut Pasteur

Milena Hasan, Head of the Cytometry and Biomarkers UTechS, Institut Pasteur and **Claudia Chica**, Research Engineer at Bioinformatics and Biostatistics Hub, Institut Pasteur

3.30-4.10pm Women's health, mother-child dyad

Sean Kennedy, group leader in the Department of Computational Biology, Institut Pasteur

Camille Berthelot, junior group leader -Comparative Functional Genomics, Institut Pasteur

Valentine Piquard, project manager, Biological Resource Center (CRBIP), Institut Pasteur

Dr Kaoutar Jidar, Medical Center of the Institut Pasteur

4.30-5.10pm Innovative biology models

Lisa Chakrabarti, group leader in the Virus and Immunity Lab, Institut Pasteur

Pauline Speder, Head of Structures and signals in the neurogenic nich Lab, Institut Pasteur

Jean-Baptiste Masson, Head of the Decision and Bayesian Computation Lab, Institut Pasteur

David Bikard, Head of the Synthetic Biology Lab, Institut Pasteur
